Junior QA Engineer

Name: Anna Kovalchuk

Country: Ukraine

Contact:

- **Phone:** +380 (97) 111-22-33
- **Email:** anna.kovalchuk@email.ua
- **Location:** Kyiv, Ukraine

Summary:

Detail-oriented and highly motivated Junior QA Engineer with six months of practical experience in manual web application testing. Possessing a strong foundation in analytical thinking and a keen eye for detail, I am eager to apply comprehensive testing methodologies to contribute to the delivery of high-quality, reliable software products. My internship provided hands-on experience in identifying, documenting, and tracking defects, as well as collaborating on test plan refinement within an Agile environment.

Education:

Bachelor of Science in Applied Mathematics

Kyiv Polytechnic Institute (Graduated: 2023)

- *Relevant coursework included:* Logic and Set Theory, Discrete Mathematics, Probability and Statistics, Algorithmic Thinking.

Experience:

QA Intern, WebDev Solutions (January 2024 - June 2024)

- Performed comprehensive manual test execution for various web applications, meticulously following predefined test cases to ensure functionality, usability, and

performance.
- Successfully identified, documented, and reported defects with clear, concise steps to reproduce, severity levels, and expected vs. actual results.
- Actively collaborated with senior QA engineers and development teams to refine and optimize test plans, ensuring thorough test coverage and alignment with project requirements.
- Gained proficiency in using industry-standard tools such as Jira for efficient bug tracking and lifecycle management, and TestRail for systematic test case management and execution tracking.
- Acquired foundational exposure to SQL, utilizing basic queries for data validation and initial debugging purposes.
- Participated in Agile/Scrum ceremonies, contributing to stand-ups, sprint planning, and retrospectives, and adapting to iterative development cycles.

Key Skills:

- **Testing Methodologies:** Manual Testing, Regression Testing, Smoke Testing, User Acceptance Testing (UAT), Functional Testing
- **Test Management Tools:** Jira (Bug Tracking & Project Management), TestRail (Test Case Management)
- **Technical Skills:** SQL Basics, HTML, CSS
- **Software Development Methodologies:** Agile, Scrum
- **Soft Skills:** Detail-Oriented, Analytical Thinking, Problem-Solving, Strong Communication, Team Collaboration, Adaptability, Eager Learner
